

# OUR VISION & MISSION

Shifting Europe's overall material use towards recycled materials through industrial excellence in waste management.

To supply the European economy with secondary raw materials and energy, while managing waste in a safe and environmentally responsible way.

**25%**  
by 2030

**75%**  
by 2035

## OUR GOAL

**Boosting the EU's domestic capacity to supply its industry with high quality raw materials from recycling.**

We need to **urgently accelerate the uptake of secondary raw materials** into the economy and reach a **Circular Material Use Rate** close to **25% by 2030**.

## & TARGET

To achieve a **75% target for the recycling of all waste in the EU by 2035**.

## OUR 5 ASKS & ACTIONS

**1**  
Circular Economy Value Chain Partnerships

**2**  
Full implementation of waste policy targets in all EU Member States

**3**  
Industrial excellence and professionalism in waste management

**4**  
Fair and transparent markets for waste

**5**  
Enhanced communications on the value of waste
